1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brett Lovejoy on 12/14/04.

The application has been amended as follows:

In the specification,

Replace the paragraph on page 1, beginning "Resonant Controlled Qubit System" with the following paragraph:

--This application is a continuation of United States Patent Application serial number 10/419,024 filed April 17, 2003, which claims priority to United States Patent Application serial number 60/374,261 filed April 20, 2002; United States Patent Application serial number 60/385,123 filed May 31, 2002; and United States Patent Application serial number 60/395,704 filed July 12, 2002, each of which is hereby incorporated by reference in its entirety.--.

In the amendment filed on 10/12/04, in line 20 of the new paragraph insert after line 11 of page 12 and just prior to the section entitled "DETAILED DESCRIPTION", change "thes" to --the--.

2. The following is an examiner's statement of reasons for allowance: The major difference in the claims not found in the prior art of record is a method comprising: tuning a resonant control system such that the resonant frequency corresponds to an

energy difference between a first energy level and a second energy level of a first qubit, thereby entangling the quantum state of the first qubit with the quantum state of the resonant control system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
